CHAPTER TWENTY-NINE: Focus Track: Drums

DISCUSSION QUESTIONS:

1. If you are a drummer, what was one interesting truth or idea that stood out to you about your instrument, and how do you think that truth or idea will help you in the future?
2. If you are NOT a drummer, what did you learn about how to effectively communicate with the drummer(s) in your worship team?
3. In your own words, how would you say the drums fit into the typical worship music pie? How big of a slice should they get? What is the main role for the drums in a typical worship team setting?
4. How do the drums typically fit into your own worship team context? Do you think you typically give them too big of a slice, too small of a slice, or just right?
5. Given the information you just received, what do you think is the number one thing that individual drummers in your specific worship team context should work on in order to improve the overall quality of the worship team, as a whole?
